

HATIM JAMALI

Game Designer

+91 8320098383 · hatimhjamali@gmail.com · [LinkedIn](#) · [Portfolio](#) · Ujjain, India

PROFILE

Game designer and indie developer with a B.Sc. in Game Design and Development and hands-on experience shipping commercial titles. Skilled across the full production pipeline — from concept and GDD through Unity development, level design, and publishing. Currently building original games independently while developing AI-powered tools for solo developers. Seeking a game designer role where creative vision and systems thinking drive meaningful player experiences.

SKILLS

Game Design: GDD Writing · Systems Design · Level Design · Mobile F2P · Monetisation · Playtesting & Iteration · Player Psychology

Development: Unity 6 (C#) · Unreal Engine · Python (Reading) · Tauri 2

3D Art: Blender · Substance Painter · 3D Modelling · Texturing · Environment Art · Animation

AI & Tools: llama.cpp · Ollama · ComfyUI · Local LLM Pipelines · Prompt Engineering

Languages: English (Fluent) · Hindi (Conversational) · Urdu (Conversational)

EXPERIENCE

Game Designer & Indie Developer · Independent · 2024 – Present

- Designed and shipped *The Wasted Times*, a typing and deception game — solo end-to-end in Unity 6, live on itch.io
- Designed *Silk.inc*, a mobile idle simulation across 38 Indian cities in Unity 6 — full GDD, systems design, and majority of development
- Built *O.R.A.C.L.E.*, a personal AI assistant running on a local LLM with persistent memory and research automation
- Currently developing *IndieLaunchKit*, an AI-powered desktop tool for solo developer itch.io publishing workflow
- Designed *Killshot*, a 2v2 networked multiplayer shooter in Unreal Engine
- Designed *3D Space Shooter*, a zero-gravity AI combat game in Unity
- Designed two original physical board games — *Archipelago* (territory conquest) and *Archenemy* (card-driven Ludo reimagining)

Portfolio: hatimhjamali.github.io/hatim-jamali-portfolio

Store and Inventory Manager · Part-time · April 2026 – May 2026

Base & Bloom — Borivali, Mumbai, India

- Managed storefront operations and board game inventory for a community game space
- Assisted in hosting regular board game nights for groups of strangers and regulars
- Developed organisational, stock management, and customer-facing skills
- Studied game mechanics across a wide range of unfamiliar board and card games

EDUCATION

B.Sc. Game Design and Development · First Class · Nov 2025

ICAT Design and Media College, Chennai — Affiliated with Alagappa University

- Studied game engine architecture, 2D/3D art production, digital modelling, mobile game development, AI for games, and level design
- Final year collaborative team project — full production pipeline from concept to delivery

NOTABLE PROJECTS

The Wasted Times · Shipped · May 2026 · Unity 6

- Solo-developed comedic typing game — blind input, reveal, roast loop — three difficulty levels, 1920s newspaper aesthetic

Play: hatimhj.itch.io/the-wasted-times

Playtest Video: youtu.be/PdOocVsYkQA

Killshot · Unreal Engine · Multiplayer

- 2v2 networked multiplayer shooter — map design, role balance, competitive mechanics

Gameplay: youtu.be/Anh6cdTeP2c

Overview: youtu.be/AHlh-TD5GU0

Multiplayer Demo: youtu.be/cmCfZlnYTU8

3D Space Shooter · Unity · Single Player

- Zero-gravity AI combat game — free-directional movement, dogfights with intelligent enemies

Playtest Video: youtu.be/x2ZlYSp8N_I
